[10. 1. 24, 19:26:04] Matjaz Zupanc: We don need trafo outside, because we are connecting on 20kV powerline.

[10. 1. 24, 19:26:19] Matjaz Zupanc: Info i got from Dem.

[12. 1. 24, 16:30:43] Matjaz Zupanc: The integral part of the tender documentation is a list of partners, subcontractors, and suppliers of key components that determine the bid price. According to the guidelines, we are obligated to report them in a table. The legislation on public procurement in Slovenia interprets that each partner/subcontractor/supplier is nominated. This is a requirement for public tenders issued by state-owned companies. As I mentioned earlier, they anticipate a 30% advance payment upon signing the contract and ordering the WTG. Of course, it is necessary to provide a bank guarantee, encashable on the first demand, for the entire amount of the advance payment. I cannot speak in detail about the specifics because I am not a lawyer. I can explain more thoroughly next week when I speak with our lawyer.

[12. 1. 24, 16:32:23] Matjaz Zupanc: Also, after signing the contract, we cannot replace a partner/subcontractor/supplier. This is a requirement in the public tender.

[12. 1. 24, 16:33:34] B & C GmbH WIND TURBINE Dolunay Bosen: We not speak like this with dem

[12. 1. 24, 16:38:37] B & C GmbH WIND TURBINE Dolunay Bosen: We speak with DEM we not accepting 30% and no Bank Gurantee

[12. 1. 24, 16:38:47] Matjaz Zupanc: DEM can change then terms all until 31.1.2024, but will they. Tender has many ishues, technical and financial.

[12. 1. 24, 16:58:57] B & C GmbH WIND TURBINE Dolunay Bosen: For us to much stress we have to many big projects in Germany, Italy and Marocco and Turkey

[12. 1. 24, 16:59:08] Matjaz Zupanc: but, ewentually you will know me. I will fucking do it.

[16. 1. 24, 11:57:06] Matjaz Zupanc: But if you can lower the price for WTG by 5%, to 1.567.500,00 would be A W E S O M E.

[16. 1. 24, 11:58:08] B & C GmbH WIND TURBINE Dolunay Bosen: Let me check

[9. 2. 24, 18:54:58] Matjaz Zupanc: Of course, I spoke with dem only for wtg`s which you sent to me.

[9. 2. 24, 19:01:19] Matjaz Zupanc: Currently I am at 2,8m€ and rudis is on 2,9+.

[9. 2. 24, 19:09:42] Matjaz Zupanc: Why surprissing expresion. I know how to do bussines.

[9. 2. 24, 19:13:43] B & C GmbH WIND TURBINE Dolunay Bosen: I have good feeling with you

[9. 2. 24, 19:13:57] Matjaz Zupanc: There are people who exactly understand everything, and they are experts, but they don`t have money, and they are not decision makers. Me and owner of our company went to see D...G.

[9. 2. 24, 19:23:36] B & C GmbH WIND TURBINE Dolunay Bosen: Very good

[9. 2. 24, 19:30:31] B & C GmbH WIND TURBINE Dolunay Bosen: Yes I am on your side

[9. 2. 24, 19:30:46] Matjaz Zupanc: I hope so 😊

[9. 2. 24, 20:20:39] B & C GmbH WIND TURBINE Dolunay Bosen: Rudis called the CEO in Turkey

[9. 2. 24, 20:20:47] B & C GmbH WIND TURBINE Dolunay Bosen: He called me now

[9. 2. 24, 20:21:39] B & C GmbH WIND TURBINE Dolunay Bosen: No problem...The CEO of DEM and Rudis want that he is coming to Zagreb

[9. 2. 24, 20:23:43] B & C GmbH WIND TURBINE Dolunay Bosen: He messed up a bit, there was a bit of light arguing. With the CEO from Turkey and the CEO doesn't like them because they are so arrogant.

[9. 2. 24, 20:24:29] B & C GmbH WIND TURBINE Dolunay Bosen: What I don't really understand is what does the CEO get out of this with Rudis? together That they really want him to fly to Zagreb.

[9. 2. 24, 20:24:50] Matjaz Zupanc: The former ceo of rudis is now technical direktor at dem, I think. that`s why they preffering rudis so much.

[9. 2. 24, 20:34:18] Matjaz Zupanc: I already told you that I have a good lady friend in rudis. My god what she is telling about them.

[9. 2. 24, 20:36:55] Matjaz Zupanc: My suggestion is to wait for the dust to settle a bit, and then we can decide how to proceed and what to do next.

[9. 2. 24, 20:39:10] Matjaz Zupanc: I also know the prices of C&G. They are over 3M€.

[9. 2. 24, 20:39:41] Matjaz Zupanc: Kolektor will not do the tender.

[9. 2. 24, 20:43:42] Matjaz Zupanc: At the moment I have the lowest price, due to local slovenian teams, eko star- electric, Vertical - assembly, fersped - transportation.

[9. 2. 24, 20:46:20] Matjaz Zupanc: This fucking WTG project is watched by whole country, especially politics. And CEO will save his ass by firing someone who was head of WTG project. wait and see.

[9. 2. 24, 20:50:55] Matjaz Zupanc: Anna is not in good position in DEM. This is her first project in DEM. I helped her a lot due to that she is not construction engineer. She has PhD from transportation.

[9. 2. 24, 20:55:47] Matjaz Zupanc: Yes, she can. I already spoke with her. She should completely remove the cap. The tender will win the lowest bidder.

[9. 2. 24, 21:01:31] Matjaz Zupanc: I will do everything to win and help Anna. If she will lose her job, I will hire her. I already told her that.

[9. 2. 24, 21:06:04] B & C GmbH WIND TURBINE Dolunay Bosen: If something like that were to happen that Anna lost her job, then we three of us would do a real wind turbine business together

[9. 2. 24, 21:06:16] B & C GmbH WIND TURBINE Dolunay Bosen: Much more money in old Turbines

[12. 2. 24, 18:28:48] Matjaz Zupanc: They will raise the top cap from 2,3 to 2,53

[12. 2. 24, 18:29:11] Matjaz Zupanc: It is still not enough. I am missing 200k

[13. 2. 24, 11:23:29] Matjaz Zupanc: Dolunay, seriously, we will go to the tender with a smaller WTG. Offer dated 20.11.2023 ref nr YT/0168-191. Only in this way can we ensure success in the tender and actual sale of your WTG.

[13. 2. 24, 11:43:18] B & C GmbH WIND TURBINE Dolunay Bosen: But DEM want the bigger Turbine as I know how will this work please ?

[13. 2. 24, 11:49:42] Matjaz Zupanc: I will ask Anna what are the possibilities for smaller WTG.

[13. 2. 24, 19:45:34] Matjaz Zupanc: Dear, I made some fire. I think tomorrow Rudis will ask you/your wind for proposal for smaller WTG. Please keep them high as you can.

[13. 2. 24, 19:49:01] Matjaz Zupanc: Smaller WTG (the first offer you sent to me) is legit due to tender conditions. I will ask you if you/your company would be so kind and prepare calculation for me regarding yearly electrical production due to wind conditions. It must be 2,2-better 2,23 GWh yearly. I will explain tomorrow. <This message was edited>

[13. 2. 24, 19:50:46] Matjaz Zupanc: I need calculation, because they can ask from me to explain them the offer.

[26. 2. 24, 19:16:12] Matjaz Zupanc: I will win this tender. Please be hard on their price. They still think they will be the only one on tender.

[29. 2. 24, 13:05:31] Matjaz Zupanc: Dear partner, we won the tender.

[29. 2. 24, 13:28:43] B & C GmbH WIND TURBINE Dolunay Bosen: Yes I am Happy we are really strong team you, Anna and I 😊

[29. 2. 24, 13:31:19] Matjaz Zupanc: I am already looking forward to do business with you and your team. Congrats to Ali, your general also.

[29. 2. 24, 14:08:26] Matjaz Zupanc: Now we have to meet in person to discuss agreement and payment.

[29. 2. 24, 14:08:44] B & C GmbH WIND TURBINE Dolunay Bosen: Yes we are coming to Slovenia

[5. 3. 24, 13:21:12] Matjaz Zupanc: ok, now we do our magic! I just got a call from DEM. They are very happy and want to meet me.

[10. 3. 24, 10:33:22] B & C GmbH WIND TURBINE Dolunay Bosen: In DEN there is someone who is giving information to the outside world

[10. 3. 24, 10:35:00] B & C GmbH WIND TURBINE Dolunay Bosen: But be quiet please

[10. 3. 24, 10:35:14] Matjaz Zupanc: Never talk to anybody

[10. 3. 24, 10:35:18] B & C GmbH WIND TURBINE Dolunay Bosen: Yes

[10. 3. 24, 10:35:48] Matjaz Zupanc: R has a liquidation problems, I hear.

[10. 3. 24, 10:35:48] B & C GmbH WIND TURBINE Dolunay Bosen: Someone from DEM give info to them

[10. 3. 24, 10:36:00] B & C GmbH WIND TURBINE Dolunay Bosen: What you mean ?

[10. 3. 24, 10:36:31] Matjaz Zupanc: I already told you, in them there is one CEO who was former CEO in R.

[19. 3. 24, 22:03:15] B & C GmbH WIND TURBINE Dolunay Bosen: But tender finished ✓ with you

[19. 3. 24, 22:05:16] Matjaz Zupanc: Rudis talk very badly about your company and Soyut Wind. That you all are scammers, and you will never deliver the WTG to Slovenia, and they will lose million Euro and.....

[11. 4. 24, 21:56:54] B & C GmbH WIND TURBINE Dolunay Bosen: In the agreement we make the brand of turbine B & C for Europe

[11. 4. 24, 21:57:14] B & C GmbH WIND TURBINE Dolunay Bosen: I don't like the name Soyut

[11. 4. 24, 21:57:56] B & C GmbH WIND TURBINE Dolunay Bosen: Manufacturing Soyut

[11. 4. 24, 21:58:18] Matjaz Zupanc: Of course. I already told everybody that we will get them new generation B&C turbine from Soyut Wind.

[16. 4. 24, 16:47:02] Matjaz Zupanc: Of course it is confidential.

[16. 4. 24, 16:49:38] Matjaz Zupanc: We are preparing contracts. Government just gave DEM additional non refundable money for Mali Log 500k€ (our project).

[16. 4. 24, 16:52:23] Matjaz Zupanc: You have to speak with anna. Shem must now more.

[16. 4. 24, 17:03:39] Matjaz Zupanc: If they will change the tender, I will fight again, because I am determent that you, me and Ali will build first bc (soyut wind) wind generator in Slovenia.

[16. 4. 24, 17:41:54] B & C GmbH WIND TURBINE Dolunay Bosen: Forget them they are bluffers

[16. 4. 24, 17:42:05] B & C GmbH WIND TURBINE Dolunay Bosen: I spoke with A 🤖

[22. 4. 24, 13:37:24] Matjaz Zupanc: Agreement is on the way. Anna told me. Tomorrow I will send you draft of our agreement for reviewing.

[22. 4. 24, 13:48:04] Matjaz Zupanc: Please, do not forget about generator replacement, that i can plan with my team,

[22. 4. 24, 13:50:10] B & C GmbH WIND TURBINE Dolunay Bosen: Yes but the olds one are standing still until the. Will be fixed

[22. 4. 24, 13:50:18] B & C GmbH WIND TURBINE Dolunay Bosen: Will keep you updated

[22. 4. 24, 13:50:59] B & C GmbH WIND TURBINE Dolunay Bosen: The generator should be dismantled from an old machine and should be reinstalled in an older machine from one wind farm to another. And this wind farm is currently idle. We do not know when it will continue.

[24. 4. 24, 08:24:36] Matjaz Zupanc: I sent you an agreemnet draft on e-mail.

[24. 4. 24, 08:55:26] B & C GmbH WIND TURBINE Dolunay Bosen: Thank you 🙏 we forward it to Ali

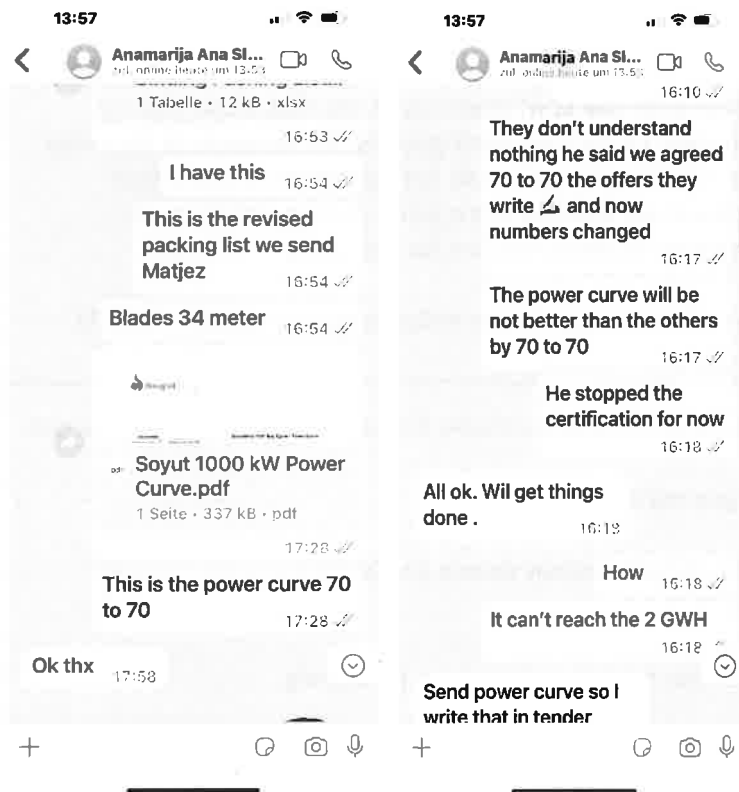

[24. 4. 24, 22:14:30] B & C GmbH WIND TURBINE Dolunay Bosen: Dear Dolunay hanım, first of all we would like to thank you and Matjaz for the cooperation before and after the tender period. We are 100% confident that this project will be a great success story as a first penetration to the Slovenia and surrounding region.

[24. 4. 24, 22:14:30] B & C GmbH WIND TURBINE Dolunay Bosen: We will send you the contract with some minor additions tomorrow morning.

[24. 4. 24, 22:14:30] B & C GmbH WIND TURBINE Dolunay Bosen: Please see the latest offer that we agreed

[24. 4. 24, 22:15:08] B & C GmbH WIND TURBINE Dolunay Bosen: From Ali

[25. 4. 24, 13:59:55] B & C GmbH WIND TURBINE Dolunay Bosen: 24 November WhatsApp with Ana

[25. 4. 24, 14:22:20] B & C GmbH WIND TURBINE Dolunay Bosen: The bosses of Ana changed the power curves

[25. 4. 24, 14:22:54] B & C GmbH WIND TURBINE Dolunay Bosen: What a mess

[25. 4. 24, 14:23:59] Matjaz Zupanc: Wait, until i discouse it with anna.

[25. 4. 24, 18:34:41] B & C GmbH WIND TURBINE Dolunay Bosen: Now, let's be honest, production is not to blame here and neither are we. Anna asked us for this offer. She said we should change the power curve from an 80/90 to a 70/70. I don't know why she needed that. But technically I also told her that it isn't possible and now this offer is being used against us. I don't think that's the right way to do it because in the end, when a 72 hour test is carried out, it will be found that these wind turbines do not have the power of an 80/90. Only then will there be problems. What is the point of an order like this if there are problems due to the technical side.

[25. 4. 24, 18:44:37] B & C GmbH WIND TURBINE Dolunay Bosen: Ohh Matjaz you know I like you but I don't want you get problems

[25. 4. 24, 18:46:25] B & C GmbH WIND TURBINE Dolunay Bosen: Even if the 2 GWH are not mandatory, in the tender you can see the strength from the power curve and can calculate it. But since this machine does not belong to this power curve, it will not be able to show this efficiency. So we and you will have a big problem later if installing finished Matjaz.

[25. 4. 24, 20:14:56] B & C GmbH WIND TURBINE Dolunay Bosen: Ali is doing some Recherche with his experts how we can solve

[25. 4. 24, 21:01:15] B & C GmbH WIND TURBINE Dolunay Bosen: Can you do little bit more delivery like 8 months

[25. 4. 24, 21:01:23] B & C GmbH WIND TURBINE Dolunay Bosen: End of 2024

[25. 4. 24, 21:01:37] B & C GmbH WIND TURBINE Dolunay Bosen: So it's winter time and more wind

[25. 4. 24, 21:02:53] Matjaz Zupanc: If you agree, if can prolonger until february, would us do any advantage.

[25. 4. 24, 21:03:05] B & C GmbH WIND TURBINE Dolunay Bosen: Yes better

[25. 4. 24, 21:04:12] Matjaz Zupanc: Thanks for support. How i will ever repay that to you and Ali.

[25. 4. 24, 21:05:52] B & C GmbH WIND TURBINE Dolunay Bosen: If 1.9 gw annual production is not a must, please be a bit flexible at the rotor diameter and hh. Because we can use different type generators and still catch good annual productions may be with smaller blades. This also reduce logistic costs.

[25. 4. 24, 21:05:52] B & C GmbH WIND TURBINE Dolunay Bosen: Therefore, during signing of agreement with the employer, please try to write flexible words like for example "rotor diameter should be between 55-70 meters."

[25. 4. 24, 21:06:56] B & C GmbH WIND TURBINE Dolunay Bosen: It would be better if you writes the tower range as 67-75.

[25. 4. 24, 21:08:28] B & C GmbH WIND TURBINE Dolunay Bosen: Yes. When signing a contract with the administration, Matjaz should have the rotor diameter written in the contract with some flexibility, if he can. It would be better if they write something like rotor diameter can be between 55-70 meters.

[25. 4. 24, 21:08:48] B & C GmbH WIND TURBINE Dolunay Bosen: Can you do it ?

[25. 4. 24, 21:09:20] Matjaz Zupanc: Will try max due to tender parameters.

[26. 4. 24, 11:49:04] B & C GmbH WIND TURBINE Dolunay Bosen: We can supply big blades but technically no need for big blades as we can get the same figures at power curve with smaller blades because our generator is a 2024 technology high efficient generator.

[2. 5. 24, 20:44:53] B & C GmbH WIND TURBINE Dolunay Bosen: I say that the numbers that comply with the specification should remain, that is, 70/70.

[2. 5. 24, 20:45:27] Matjaz Zupanc: <attached: 00002171-STICKER-2024-05-02-20-45-26.webp>

[2. 5. 24, 20:45:33] B & C GmbH WIND TURBINE Dolunay Bosen: Let the rotor diameter of only 70 meters be 57-70 meters

[2. 5. 24, 20:46:17] Matjaz Zupanc: I will put all of my strenght to achive the diameter change in main contract.

[2. 5. 24, 20:48:56] Matjaz Zupanc: For me it is cristal clear. But I have to convince them.
