

Radio Si - Radio Slovenia International is the first and only foreign language radio station in Slovenia.

#### Who listens to it?

Foreigners travelling to Slovenia on business or to spend their holidays in this small Alpine state, and those Slovenes that do not see foreign languages as a communication obstacle.

#### What kind of a programme does Radio Si offer?

A well balanced mixture of musical and informative programmes 24 hours a day. 85% of the programme time is devoted to the best international and Slovene hits, and the remaining 15 % is intended for up-to-date political, business and economic, cultural, and sports information. Which is just enough to keep our listeners constantly well informed.

The essential elements of the programme are weather, traffic, cultural and sports information and also events taking place in Slovenia.

#### Which languages do we use?

Slovene, German and English.

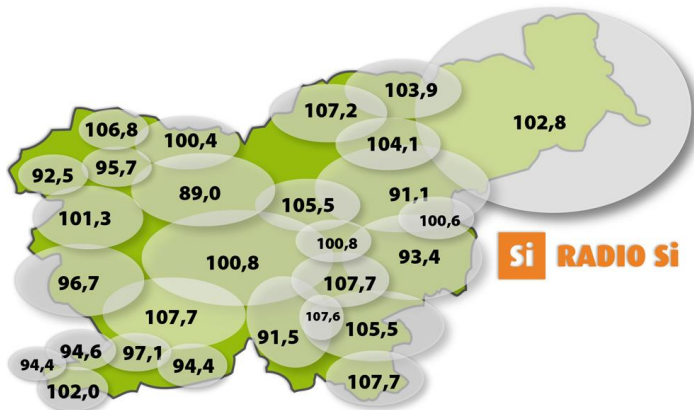

#### Where can you listen to Radio Si?

Nearly everywhere in Slovenia. In the coming months it is our goal to introduce the station to those parts of the country, where up to now listeners have been deprived of a chance to listen to Radio Si.

You can also listen to Radio Si via our home page [www.euranet.eu](http://www.euranet.eu)!
